FOR IMMEDIATE RELEASE

HOUSTON, TX – June 11, 2015

U.S. CONGRESSMAN ROGER WILLIAMS VISITS TEJAS TUBULAR STEPHENVILLE WORKS

On May 6, 2015, Representative Roger Williams (R-TX) toured Tejas Tubular Stephenville Works (TTSW), to see first-hand the impact of the oil country tubular goods (OCTG) industry and its overall impact on American manufacturing and energy security. During the visit, he met with employees and part of the management team to discuss the benefits of hydraulic fracturing and the role TTSW is playing in achieving American energy independence from imported oil.

“I enjoyed meeting with the folks at Tejas Tubular, a leading manufacturer but also a small business,” said Williams. “As a small business owner myself I understand the importance of pro-growth policies. I came to Washington to help businesses like Tejas Tubular thrive, and I wish them the best in the future endeavors.”

“It was a privilege to host Representative Williams at TTSW today,” stated Maximo Tejeda, President and CEO of Tejas Tubular Products, Inc. “We appreciate all the hard work he has done on behalf of the energy industry and the 25th District of Texas. It was a great opportunity for us to demonstrate the capabilities of TTSW and have a political forum with employees on what issues are most pressing during these times.”

Tejas Tubular Stephenville Works processes tubular products with premium connections, macaroni tubing and manufactures electric resistance welding (ERW) tubing. It is one of the nation’s leading producers of energy tubular products used by the nation’s energy sector.

Tejas Tubular Products, Inc. currently has manufacturing facilities in Houston, Texas, Stephenville, Texas and New Carlisle, Indiana. The company is one of the leading manufacturers and suppliers of oil country tubular goods for the petroleum industry and offers a complete range of OCTG products serving conventional, offshore and unconventional production projects. The Tejas product lines include petroleum production products such as casing, tubing, couplings and tubular accessories as well as drilling products including HDD drill pipe, oilfield drill pipe, drill collars and drill string accessories.
